

DEFENSE LOGISTICS AGENCY

CONSOLIDATED HANDBOOK OF DISASTER RELIEF ITEMS

April 2002
Version 1.01

To Our Customers:

The DLA Disaster Relief Item Catalog is published by the Defense Logistics Information Service with data supplied by the Defense Logistics Agency and other agencies. This edition supersedes all previously dated editions.

We are pleased with this new document and have a firm commitment to customer satisfaction. If you have any recommendations, please let us know. You may write to:
COMMANDER, Defense Logistics Information Service, ATTN.: DLSC-VPH, Federal Center,
Battle Creek, Michigan 49017-3084.

A handwritten signature in black ink, appearing to read "N.Y.F.F.", with a stylized flourish at the end.

PHILIP N. YFF
Colonel, USMC
Commander
Defense Logistics Information Service

INTRODUCTION

General Information

This handbook is a direct result of lessons learned during support of the Hurricane Andrew relief efforts. We discovered that many people who were not part of the DoD requisitioning system, found it confusing and the system hard to use. After the September 11, 2001 (9-11) terrorist attack, DLIS began obtaining lists of disaster related items supplied by or through other agencies and has begun consolidating the information into one place. This handbook will be updated through out the year as more information is received.

We have tried to make this handbook more "user friendly" than other DoD catalogs by: using clearer descriptions, grouping according to type of item, including ONLY the information needed to order the items, including ALL of the information needed to order the items, providing sample order forms which can be filled in and faxed to us, and providing voice and fax telephone numbers and DLA Web sites as well as web sites for other agencies when available.

This handbook includes items managed by the Defense Supply Center Philadelphia and Defense Supply Center Richmond. Because complete catalogs from DSCP and DSCR would be too unwieldy for use in an emergency (and the fact the not all are needed in an emergency), this handbook contains information on approximately 600 of the items most commonly asked for during disaster relief operations. Prices for DLA supplied items shown in this catalog are taken from the DLA line in the management data stored in the Federal Logistics Information System (FLIS) data base and are current as of the date shown in each Appendix.

A new feature is providing this catalog in CD-ROM format. This catalog on the DLIS web at <http://www.dlis.dla.mil>. The catalog is stored under Forms and Publications and identified as DLA Handbook - Disaster Relief Items. This catalog is in Portable Document Format (PDF), has bookmarks, is searchable by key word and is internally and externally linked to other DLA/DoD web sites. You can reproduce hardcopy of one or more pages from your printer. For a copy of the CD, please contact DLIS at Com: 616-961-5071, DSN: 932-5071.

APPENDIX 6 ORDER FORMS

A sample order form is on the next page. It shows what the form looks like when filled out. A blank order form for your use is on the following page. You can either call the voice telephone number and read the information, or you can send a copy of the completed form to DSCP by using a facsimile (FAX) machine. This is a guide to ensure that minimum essential information is available to process your order.

First, ensure that we have your name, phone number and the exact delivery point you want the material shipped to.

Second, obtain a Department of Defense Activity Address Code (DODAAC). This is obtainable by contacting the Army Region Liaison who is (or should be) co-located within the emergency relief headquarters in the disaster area. Other sources that have DODAACs and may allow you to use them include the Public Health Administration, the Forestry Service, the General Services Administration, and other Federal agencies.

Next determine the Fund Code. This is obtainable from the same source as the DODAAC. It is a two digit code that indicates who is paying.

Using the handbook, determine what items you want to order. The handbook will give a National Stock Number (NSN), which is the number you will need to know to order the particular item you want. If you have an item you cannot identify within the catalog, you may ask for someone at the phone number listed on the front of each applicable appendix to determine if it is available.

From this handbook you will also need to determine the unit of issue and the overall quantity you want. Remember, if you want 24 each and the unit of issue is a box of 12, only order two boxes.

The Julian Date is a four digit numerical date. The first digit is the last digit of the calendar year. The last three digits of the Julian Date indicate the exact day of the year and can be determined by using the Julian Date calendar in Appendix 7.

The serial number is assigned by you. It is normally assigned sequentially to the different material being ordered on a particular day. On each new Julian Date the numbers will begin back at the beginning. You must not duplicate a DODAAC, Julian Date, and serial number combination. Therefore if more than one location is ordering for a DODAAC, assign blocks of serial numbers to the different orderers.

Inform the supply point of the Required Delivery Date for each item you need. Remember, the supply system can provide speedy service, but a routine order would take 30 days. Let us know when you can reasonably require the item and we will do everything in our power to make it happen.

APPENDIX 8

DEFINITIONS AND ABBREVIATIONS

Authorized Requisitioner	An installation or activity which has been authorized to submit requisitions to the Defense Supply Center Philadelphia.
DODAAC	The Department of Defense Activity Address Code (DODAAC) identifies to the computer who is requisitioning the item. Civilian agencies use a FEDSTRIP Activity Code assigned by GSA.
Fund Code	A two character code used to indicate who is paying for the items ordered.
Julian Date	A four digit number. The first digit is the last digit of the calendar year (e.g., 1993 = 3) and the last three digits indicate the day of the year (e.g., January 1 = 1, January 31 = 31). The Julian Date for March 5, 1993 is 3064.
Meal	A nutritionally balanced food unit consisting of approximately one-third of a ration.
Name and Phone Number	We need this in case there are any problems or questions and we have to get back to you.
National Stock Number (NSN)	A 13 digit number assigned to each item.
Project Code	Used to identify the operation or disaster. This helps us to serve competing priorities during the operation and to identify costs after the operation.
Quantity	The number of items (units of issue) being requested.
Ration	The allowance of food for one person for one day.

Required Delivery Date (RDD) The date the item requested is required to be delivered.

Serial Number This is a four digit number assigned by the requisitioner, it must not be duplicated on the same day. (Usually requisitions are numbered consecutively starting at 0001 each day.)

Ship To This is to whom and where the items are to be delivered.

Unit of Issue (U/I) A two character abbreviation describing the way items are ordered. (For example if you want 12 of an item and the unit of issue is "each" you would order 12; if the unit of issue is "dozen", you would order 1.)

APPENDIX 9

ITEMS MANAGED BY OTHER DLA ACTIVITIES

1. For construction materials such as repair parts for automotive and construction equipment, springs, construction rigging, electronic components such as resistors, capacitors, transformers, connectors, microcircuits, etc. contact:

Defense Supply Center Columbus (S9C/S9E)

Columbus, OH 43215

(614) 236-3191

<http://www.dscc.dla.mil>

2. For bearings, cable and electrical wire, contact:

Defense Supply Center Richmond (S9G)

Richmond, VA 23297

(804) 279-4865

<http://www.dscr.dla.mil>

3. For bulk fuel and petroleum products contact:

Defense Energy Support Center

Alexandria, VA 22304-6160

(703)767-9306

<http://www.desc.dla.mil>

[http://www.dscheffs@desc.dla.mil](mailto:dscheffs@desc.dla.mil)

4. For general and industrial items such as lumber, plumbing and accessories, gaskets, block and tackle, rigging, metal bars and sheets, etc., contact:

Defense Supply Center Philadelphia

Philadelphia, PA 19111-5092

(877) 352-2255

<http://www.dscp.dla.mil/gi/general/prodgrps.htm>

5. For locating excess stocks of all commodities except drugs and biologicals, contact:

Defense Reutilization and Marketing Service

Battle Creek, MI 49017

(616) 961-7248

http://www.drms.dla.mil/rtda/RTD_Info/Transfer/Transfer_Property_Search/Disaster_Relief/disaster_relief.html

6. For logistics information, contact:

Defense Logistics Information Service

74 N. Washington Ave.

Battle Creek, MI 49017-3084

(616) 961-4725

DRMS Disaster Relief Efforts Criteria Used in Searches

(Reproduced from the DRMS Web page by DLIS for use in this section)

If you are a **Federal Agency** or a **State Agency for Surplus Property (SASP)** looking for property to assist in Disaster Relief Efforts, this page will be especially helpful.

Listed below are "**instant searches**" of property most likely to be needed in such circumstances. If you click on an item in the left-hand column, it will bring up a completed property search for property in that classification

Clicking on items in the right-hand column gives you the Federal Supply Classes (FSCs), NIINs, etc., that were used to define the property search, so you can compile your own listing to search with in the future, if you wish.

Criteria Used In Searches

For Bedding, the following NIINs are searched:

NIIN	ITEM NAME
00-935-0422	COT, MILITARY
00-269-9279	COT, WOOD
00-205-2804	BLANKET, WOOL
01-109-3369	MAT, SLEEPING
00-081-0884	SHEETS
01-119-6416	SHEETS
01-015-5190	PILLOW, BED
01-035-3342	PILLOW, BED
00-231-2373	PILLOWCASE

For Clothing, the following NIINs are searched:

FSC or NIINR	ITEM NAME
8405	OVERALLS, MEN
8405	PONCHO
8405	JACKET, WET WEATHER
8415	UNDERSHIRT
8415	CAMO, COAT
8420	DRAWERS
8430	BOOT, HIP

For Cold Weather Clothing, the following NIINs are searched:

FSC or NIIN	ITEM NAME
8415	HAT, COLD
8415	HOOD, COLD
8415	SHIRT, COLD
8415	UNDERSHIRT, COLD
8415	PANT, COLD
8415	TROUSERS, COLD
8415	DRAWERS, COLD
8415	JACKET, COLD
8430	BOOT, COLD

For Construction Equipment, the following NIINs are searched:

FSC or NIIN	ITEM NAME
01-321-4499	TORCH, OUTFIT, CUTTING
01-352-1823	TORCH, OUTFIT, CUTTING
01-354-2752	TORCH, OUTFIT, CUTTING
01-368-7038	TORCH, OUTFIT, CUTTING
00-239-8746	LOADER, BUCKET TYPE
00-239-8747	LOADER, BUCKET TYPE
00-243-2746	LOADER, BUCKET TYPE
00-378-9792	LOADER, BUCKET TYPE
00-641-6017	LOADER, BUCKET TYPE
00-187-0252	LOADER, SCOOP TYPE, TRACTOR MOUNTING
00-452-0377	LOADER, SCOOP TYPE, TRACTOR MOUNTING
00-554-1948	LOADER, SCOOP TYPE, TRACTOR MOUNTING
01-300-6967	LOADER, SCOOP TYPE, TRACTOR MOUNTING
6230	LIGHT, MARKER, GROUND OBSTRUCTION
6115	GENERATOR SET, DIESEL ENGINE
6115	GENERATOR SET, GASOLINE ENGINE
3830	ANGLED OZER, EARTH MOVING
3830	BULDOZER, EARTH MOVING
3830	SCRAPER, EARTH MOVING
3830	GRADER, ROAD

For Fire-Fighting Equipment, the following NIINs are searched:

FSC or NIIN	ITEM NAME
00-142-1103	LADDER, FIRE, SINGLE
01-127-7836	LADDER, FIRE, SINGLE
01-160-5626	LADDER, FIRE, SINGLE
01-303-8212	LADDER, FIRE, SINGLE
01-411-4691	FOAM, POWDER, FIRE EXTINGUISHING
01-411-4692	FOAM, POWDER, FIRE EXTINGUISHING
00-293-7664	FORCED , ENTRY
00-574-4098	FORCED , ENTRY

FEDERAL EMERGENCY MANAGEMENT AGENCY DISASTER COMMODITIES LIST

This information identifies the equipment placed on a flat bed semi-trailer to equip a FEMA Mobile Command Center.

Mobilization Center Kit Contents:

- 48 foot Flat Bed Trailer
- 36 foot Portable loading ramp
- 1 ea Daewoo 5k F/Lift, multi-fuel
- Hand Held Radios
- Emergency First Aid Support
- Exterior Lighting
- FAX/Copier/Printer
- Digital Cameras
- Office Supplies
- Tool Kit
- 4 pre-packed Go-Kits (Misc. Support Equip/Supplies)

HAZMAT EQUIPMENT

FY 2000/01 Authorized Equipment Purchase List

The State Domestic Preparedness Equipment Program authorized equipment purchase list identifies types of equipment that may be purchased under the federal grant program and was derived from the Standardized Equipment List (SEL) for use by the state agencies. This document controls Michigan State Police purchases under this program, and was provided to DLIS for inclusion in this handbook.

The SEL was developed by the Interagency Board (IAB) for Equipment Standardization and Interoperability. The IAB compiled the SEL on behalf of the National Domestic Preparedness Office (NDPO) to delineate the types of equipment necessary for terrorist incident response. Because the SEL also contains lists of general use and support equipment, a more narrow list was derived from the SEL to identify the specific types of specialized equipment authorized for purchase under the Fiscal Year 2001 State Domestic Preparedness Equipment Program. This specialized equipment falls into four distinct categories: 1) personal protective equipment (PPE); 2) chemical, biological, or radiological detection equipment; 3) decontamination equipment; and, 4) communications equipment. A cross-section of officials representing the Public Health Service (PHS), the Federal Emergency Management Agency (FEMA), the U.S. Department of Energy (DOE), the U.S. Department of Justice (OJP and FBI), and State and local hazardous materials experts assisted in the development of this authorized equipment purchase list and in identifying unallowable items.

Authorized equipment purchases may be made in the following categories:

1. Personal Protective Equipment (PPE)
2. Chemical, Biological, or Radiological Detection Equipment
3. Decontamination Equipment
4. Communications Equipment

1. Personal Protective Equipment. Equipment that is worn to protect the individual from hazardous materials and contamination. Protection may vary and is divided into four levels based on the degree of protection afforded.

Level A. Selected when the greatest level of skin, respiratory, and eye protection is required.

- Reuseable or limited-use fully encapsulated chemical resistant suit ensemble.
- Butyl hoods and gloves
- Reusable fully encapsulated training suits
- Testing equipment for fully encapsulated suits.
- Closed circuit rebreather* or open circuit Self Contained Breathing Apparatus (SCBA) or, when appropriate, Supplied Air Breathing Apparatus (SABA)
- Spare cylinders for rebreathers or SCBA and service/repair kits
- Chemical resistant gloves, including thermal, as appropriate to hazard
- Personal Cooling System, vest or full suit with support equipment
- Chemical Resistant Boots, steel or fiberglass toe and shank
- Personnel Accountability System (specific to SCBA use only)
- HAZMAT gear bag

*Due to cost and utility of closed circuit rebreathers, a full and complete justification must be provided to obtain approval to purchase the equipment.

Level B. Used when the highest level of respiratory protection is necessary but a lesser level of skin protection is required. The following constitute Level B equipment.

- Hooded Chemical Resistant Clothing or Full Coverage Level B Suits
- Butyl hoods and gloves
- Closed circuit rebreather* or open circuit SCBA or, when appropriate, SABA
- Spare cylinders for rebreathers or SCBA, or SABA, and service/repair kits
- Chemical resistant gloves, including thermal, as appropriate to hazard
- Personal Cooling System, vest or full suit with support equipment
- Chemical Resistant Boots, steel or fiberglass toe and shank
- HAZMAT gear bag

*Due to cost and utility of closed circuit rebreathers, a full and complete justification must be provided to obtain approval to purchase the equipment.

Level C. Used when the concentration(s) and type(s) of airborne substances are known and the criteria for using air-purifying respirators are met. The following constitute Level C equipment.

- Hooded Chemical Resistant Clothing
- Butyl hoods and gloves
- Full Face Air Purifying Respirators with appropriate cartridges or positive pressure units (Powered Air Purifying-PAPR)
- Personal Cooling System, vest or full suit with support equipment
- Chemical Resistant Boots, steel or fiberglass toe and shank
- HAZMAT gear bag

Level C. continued

- Emergency Escape Breathing Apparatus (EEBA) 10 minutes or longer

Level D. Selected when no respiratory protection and minimal skin protection is required, and the atmosphere contains no known hazard and work functions preclude splashes, immersion, or the potential for unexpected inhalation of, or contact with, hazardous levels of any chemicals. and the criteria for using air-purifying respirators are met. The following constitute Level D equipment

- Escape mask for self-rescue

Note: During WMD response operations, the incident commander determines the appropriate level of personal protective equipment. As a guide, Levels A, B, and C are applicable for chemical/ biological/radiological contaminated environments. Personnel entering protective postures must undergo medical monitoring prior to and after entry.

2.Chemical, Biological, or Radiological Detection Equipment.

Chemical and Radiological

- M-8 Detection Paper for Chemical Agent (weapons grade) detection
- M-9 Detection Paper (roll) for Chemical Agent (weapons grade) detection
- M-256 Detection Kit for Chemical Agent (weapons grade-blister: CX/HD/L; blood: AC/CK; and nerve: GB/VX) detection
- M-256 training kit
- Hazard Categorizing (HAZCAT) Kit
- Point Chemical Agent Detector and Alarm

- Stand-Off Chemical Detector, FTIR (infrared)
- Handheld Chemical Agent Monitor with training set
- Container Sample Transfer/Small Infectious Substance
- Air and Liquid Detector Tube System
- Colormetric tube/chip kit with additional tubes/chips
- Multigas meter
- Combustible gas indicator
- Photoionization Detector (PID)
- Flame Ionization Detector (FID)
- Field Deployable Gas Chromatography/Mass Spectrometer (GC/MS)*
- Radiation monitoring equipment (pancake probes and gigometer tubes)
- Electronic Radiation Detection
- Radiological dosage meter such as self-reading dosimeters, chargers, and film badges
- Pesticide screening kit

* Gas Chromatographic/Mass Spectrometers are extremely expensive to purchase, require highly trained technicians to operate, and are difficult and costly to maintain.

Biological

- Specific Bioimmunoassay Test Kit
- Biological Sampling Kit with Aerosol Collector

3. Decontamination Equipment. Equipment and material used to clean, remediate, remove, or mitigate chemical or biological contamination. DOE possesses geographically dispersed capabilities to handle nuclear or radiological contamination.

Chemical

- M-295 individual decontamination kit for chemical warfare agents
 - Decontamination system supplies
 - Water Bladder, Decontamination Shower Waste Collection
 - Trailer, multiwater Source, and Prime Mover (must be appropriate for tier level response of Tier Three Level or Tier Four level only)*
 - Emergency Decontamination Shelters
- Reusable Decontamination litters/roller systems
- Reusable Extraction Litters, rollable
- Colored/nonviewable cadaver bags (CDC standard/Non-permeable and NBC Compatible)
- Transportation and shipping containers for contaminated clothing and equipment(requires justification for tier level use)

* Grant funds may be used to purchase medical pharmaceuticals indicated with asterisks for personal protective equipment for first responders. Grantees are responsible for replenishing items after shelf-life expiration date(s)

Biological

- High Efficiency Particle Attractor (HEPA) dry decontamination vacuum

Medical: Purchases authorized for use in decontamination operations:

- 2Pam Chloride*
- Atropine 2mg/ml, 25ml vial*
- Atropine Auto Injector*
- CANA Auto Injectors*

- Autovent 3000 multigang/portOxylator/ventilators
- Mask
- Nasopharyngeal Airway 4, 5, 6, 7, and 8mm
- Oropharyngeal Airway 50, 60, 70, 80, 90, and 100mm
- Oxygen Cylinder Super D
- Oxygen Mask with Tubing
- Oxygen Tank Regulator

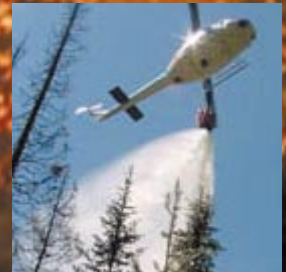

* Grant funds may be used to purchase medical pharmaceuticals indicated with asterisks for personal protective equipment for first responders. Grantees are responsible for replenishing items after shelf-life expiration (dates).

4. Communication Equipment. Equipment and systems providing connectivity and electrical interoperability between local and intragency organizations to coordinate WMD response operations.

- Multichannel (UHF/VHF) encrypted radios with chargers and two extra batteries and accessories and trickle chargers with field programming capability
- In-suit or hand-held communication systems for long-range/two-way, encrypted, voice, video, and data transmission, capable of cross-band repeat
- Computer systems designated for use in an integrated system to assist with detection and communication efforts*
- Personnel Accountability System to alert for downed personnel (specific to SCBA use only)

* Stand-alone general-use laptops, printers, CD-ROMs, etc., are not allowable. Allowable computer systems must be linked with integrated software packages designed specifically for chemical and/or biological agent detection and communication purposes.

Wildfire Protection Equipment and Supplies

2001

U.S. General
Services Administration
Federal Supply Service

We Accept GSA SmartPay Cards

Dear Valued Customers:

GSA has been actively supporting the National Wildfire Protection Program since the '50s and looks forward to supporting the same for many years to come. Our goal is to continue making improvements to the program to meet the ongoing changes within your organization and the way Government does business. We will strive to continue providing good quality products, in a timely manner, at the most reasonable cost. GSA furnishes wildfire protection equipment and supplies to Federal agencies as well as U.S. Forest Service cooperating organizations through formal Interagency Agreements with the U.S. Department of Agriculture. The importance of the National Wildfire Protection Program cannot be overstated, and GSA has pledged to assist in program implementation whenever possible. Our objectives are to (a) facilitate advance procurement, (b) assist in the standardization of wildfire protection equipment and supplies, (c) effect savings through consolidated purchasing and (d) provide for direct distribution of items to field units. Thank you for your loyalty and continued trust.

Sincerely,

Ray Balli
GSA Fire Program Coordinator

About Your Catalog

This Wildfire Protection Equipment and Supplies Catalog is the basic supply publication for use by the U.S. Forest Service (USFS), Bureau of Land Management (BLM), Bureau of Indian Affairs (BIA), U.S. Fish & Wildlife Service (USF&WS), National Park Service (NPS), National Association of State Foresters (NASF), and other Forest Service sponsored participants in the Government wide wildland firefighting effort.

This catalog, issued annually, contains descriptions and ordering data for wildfire protection equipment and supplies stocked in GSA Distribution Centers. Items are indexed alphabetically by name and numerically by National Stock Number (NSN) and National Fire Equipment System (NFES) number.

Your suggestions for improvements to this catalog are invited at any time. For your convenience, a comment form is included at the back of this catalog. Items will be deleted or added as needed provided they meet the criteria established between GSA, USFS, and BLM. Questions or comments should be directed to the GSA Fire Program Coordinator at (817) 978-8637, or e-mail: ramond.balli@gsa.gov .

Additional copies of this catalog may be obtained upon request from the Centralized Mailing List Service (CMLS). To receive this publication on a continuing basis call (817) 334-5215 and request to be placed on the automatic mailing list. This catalog is updated and published annually and is distributed in early to mid-March.

Clearances: GSA has complied with all regulations governing the purchase of items available from Federal Prison Industries, Inc., Federal Supply Schedule contractors, NISH, National Industries for the Blind (NIB), and the Government Printing Office. Ordering offices are not required to obtain clearance on items available from these sources when ordering direct from GSA.

Freight Charges: The cost of normal motor carrier transportation to consignees located in the United States (except certain areas of Alaska) is included in the prices shown in this catalog. **Premium transportation, such as air freight, emergency trip or exclusive use of vehicle service, must be paid by the requisitioner and appropriate transportation funds must be cited when placing order.**

Prices: Prices are on a freight on board (f.o.b.) destination basis for surface transportation to consignees in the United States. Special transportation payment policy is applied to Alaskan shipments depending on ultimate destination. **Any requirements for premium transportation must be paid for by the ordering activity.**

Note: *The prices in this publication are approximate. Exact prices may be obtained by calling your closest GSA Acquisition Center (See page 52).*

Specification References: The specifications cited in catalog descriptions may undergo a series of revisions, indicated by successive suffix letters, to keep current with industry changes and agency needs. Since it is not feasible to show the latest current revision on the catalog publication date, only the basic specification is referenced in this catalog. Although stock items are always procured under the latest edition of a specification in effect at the time of procurement, stock on hand procured under a previous edition of a specification will be issued until the supply is depleted.

The National Stock Number: The National Stock Number (NSN) is used for all transactions, i.e., requisitioning, new procurements, existing contracts, shipments, shipper's invoices, payments, cataloging, stock records, etc. Accordingly, the items in the catalog are identified by 13-digit National Stock Numbers. For further information on National Stock Numbers, consult the FEDSTRIP Operating Guide (Mail List code OFOG-0008) which is available from GSA's Centralized Mailing List Service (CMLS), (817) 334-5215, fax (817) 334-5227, or e-mail: ken.cowan@gsa.gov.

Wildland Fire Program

Commitment to the

It is GSA's policy to offer products that fully comply with all environmental regulations.

The Federal Supply Service offers hundreds of items that have recycled content, conserve energy and/or water, or have reduced pollutants to help address environmental concerns relative to minimizing waste, conserving natural resources, and preventing pollution.

Wildfire Protection Equipment and Supplies

Hand Tools

Single-Bit Ax

Single-bit boy's style ax has a hickory handle secured with adhesive bonding and plastic wedge. Features a 24" long handle, 2-1/4" -lb head and 3-15/16" wide cutting edge. Forest Service Spec. 5100-9. (NFES #0352)

Std. pack: 12

5110-00-293-2339 EA \$15.99

Fire Line Combination Tool

Combination pick and shovel that can be folded for easy transport. Similar to army entrenching tool with 40" handle and serrations on shovel edges for cutting light brush. Intended for use on wildland fire lines and for general forest work and trail maintenance. For replacement handle, see NSN 5120-01-296-3592. Forest Service Spec. 5100-325. (NFES # 1180)

Std. pack: 10

5120-01-240-2120 EA \$42.38

Hand Sledge Hammer

Straight-Peen, sledge hammer, 8 pounds with 36" handle. (NFES #1858)

Std. pack: 4

5120-00-236-3679 EA \$22.31

Pulaski Tool

Axe and hoe combination, fire line digging and chopping tool. Cutting edges: hoe 3-3/8"; axe 4-1/2". Comes with orange sheath installed. For replacement handle, see NSN 5110-01-137-7507. Forest Service Spec. 5100-355. (NFES #0146)

Std. pack: 10

5120-00-293-3467 EA \$56.83

Forest Fire (McLeod) Rake

Rake and hoe combination; Fire line digging tool. Hoe and rake edges are 11 inches wide. Comes with orange sheath installed. Forest Service Spec. 5100-353. (NFES #0296)

Std. pack: 10

4210-00-203-3512 JWOD EA \$47.89

Collapsible Firefighting Rake

Collapsible metal rake for fireline construction. Stainless steel tines extend to 16" width. Foam grip handle. Length 59.5" (extended) and 49.4" (collapsed). Weight 3.3. pounds.

New!

REC Drawing No. 90-5700C. (NFES #0659)

Std. pack: 10

4210-01-387-1392 EA \$36.78

Do you need help or have questions relating to the fire program or GSA support in general? Contact the GSA Fire Program Coordinator, Ray Balli, (817) 978-8637, e-mail: ramond.balli@gsa.gov.

Forest Fire (Rake and Cutting Tool)

Council or Rich tool. Fire line digging, triangular cutting heads on hoe-type frame 12" wide, straight handle 52" long. Consist of four mowing-machine cutter blades riveted to a steel frame. Forest Service Spec. 5100-284.

(NFES #1807)

Std. pack: 10

4210-00-540-4512

EA \$17.64

Forest Fire Shovel

Designed especially for wildland fire fighting. Solid shank, straight handle. Special shape size #1 with forward step. Comes with orange sheath installed. Forest Service Spec. 5100-326. (NFES #0171)

Std. pack: 10

5120-00-965-0609

EA \$24.05

Abrasive Disks

Abrasive disks with closed coating. Aluminum oxide grit. Unslotted, without backing pads. 7" dia., 7/8" arbor hole. Grit size 24. ANSI B7.7, ANSI B74.18.

(NFES #1828)

Std. pack: 4 (25 EA/BX)

5345-00-558-5928

BX(contains 25 EA) \$26.29

Sharpening Gauge

Field and shop guide for fire tool refurbishment and inspection. Has guides for Axes, Shovels, Pulaski Tool, Combination Tool and McLeod Tool. Aluminum, 7.5 cm x 20.5 cm x 0.3 cm in size, with instruction printed on both sides. MTDC Drawing 846.

(NFES #0510)

Std. pack: 10/100

5210-01-324-2776

EA \$12.84

Sheaths

Leather Ax Sheath

Single-bit leather axe sheath. Constructed of extra lightweight first grade harness leather, riveted throughout. Black or russet. For 2-1/4 pound head with belt loop and buckle flap fastener. (For use with NSN 5110-00-293-2339). Forest Service Spec. 5100-314. **(NFES #0359)**

Std. pack: 36

8465-00-293-3369	EA	\$8.01
------------------	----	--------

Plastic Sheath

Molded polyurethane plastic sheath accommodates a hand shovel to protect tool and user. Riveted with washers on both sides. Forest Specs. 5100-316. **(NFES #1853)**

Std. pack: 10 or 100

8465-01-136-4719	JWOD	Orange	EA	\$3.85
------------------	------	--------	----	--------

McLeod Tool Sheath

Molded polyurethane plastic sheath accommodates a McLeod tool. Forest Service Spec. 5100-316. **(NFES #1854)**

Std. pack: 10 or 100

8465-01-136-4718	JWOD	Orange	EA	\$2.74
------------------	------	--------	----	--------

Pulaski Tool Sheath

Molded polyurethane plastic sheath effectively covers the sharp edges of a Pulaski tool. Sheath consist of buckle and strap section and rivet holes for fasteners. Sections are fastened together with oval-head rivets and washers. Forest Specs. 5100-316. **(NFES #0257)**

Std. pack: 10 or 100

8465-01-067-9999	JWOD	Orange	EA	\$3.17
------------------	------	--------	----	--------

GSA Advantage!™ is a World-Wide Web on-line, electronic ordering system that allows ordering activities to search through all GSA sources of supply and select the item that is the best value for their requirements.

Handles & Handle Wedges

Axe Handle

Straight grain, solid hickory handle. Made of high-grade, heavyweight stock. Forest Service Spec. 5100-9.

For single-bit, belt-style ax. Measures 26" overall length. (NFES #1812)

Std. pack: 12

5110-00-293-3380

EA \$5.74

Double-Bit Ax Handle (Western-Style)

Solid hickory handle is straight-grain and made of high-grade, heavyweight stock. For double-bit, western-style ax with 3-1/2-lb head. Measures 36" overall length. (NFES #0249)

Std. pack: 12

5110-00-254-6635

EA \$5.64

Tool Handle

Solid hickory handle serves as replacement handle. (For Pulaski Firetool with plastic wedge). 36" long. Forest Service Drawing MEDC 632. Forest Service Spec. 5100-355. (NFES #1857)

Std. pack: 12

5110-01-137-7507

EA \$12.11

41" hardwood handle serves as a replacement handle, (For Combination Tool). Tapered working ends fits metal ferrule with hinged tool and locking nut. Forest Service Drawing MEDC 736. Forest Service Spec. 5100-355. (NFES #1168)

Std. pack: 12

5120-01-296-3592

EA \$7.68

Tool Handle Wedge

For keeping axe and pulaski handles tight and safe.

Metal: 3/16" thick; 9/16" width; 1-3/16" length. (NFES #0432)

Std. pack: 6

5120-00-278-7590

DZ \$18.03

Wood: Approximately 5/16" thick; 2-3/8" width; 2-1/2 inches long. (NFES #0433)

Std. pack: 36

5120-00-293-3451

DZ \$25.75

Hoses and Gaskets

Rubber Lined Cotton-Synthetic Fire Hose

Elastomer-lined fire hose. Ozone-resistant lining. Single synthetic cotton jacket is mildew resistant. Working pressure 450 p.s.i., coupled with aluminum, rocker-lug couplings. Forest Service Spec. 5100-186.

1" diameter hose has a 1" NPSH threaded coupling.
(NFES #0965)

Std. pack: 5

4210-01-039-4855 LG(contains 50 FT) \$36.43

Elastomer-lined fire hose. Ozone-resistant lining. Single synthetic cotton jacket is mildew resistant. Working pressure 450 p.s.i., coupled with aluminum, rocker-lug coupling. Forest Service Spec. 5100-186.

1" diameter hose has 1" 11-1/2 NPSH threaded aluminum coupling. (NFES #0966)

Std. pack: 2

4210-00-777-1591 LG(contains 100 FT) \$67.73

1-1/2" diameter hose has 1-1/2" 9 NH threaded aluminum couplings. (NFES #0967)

Std. pack: 2

4210-00-777-1592 LG(contains 100 FT) \$86.88

1-1/2" diameter hose has 1-1/2"-NH threaded couplings.
(NFES #0964)

Std. pack: 5

4210-01-037-7031 LG(contains 50 FT) \$51.94

Synthetic Lined Fire Hose

Lined synthetic woven jacket hose, light-weight, 100 ft. lengths, with aluminum rocker lug couplings. Working pressure 450 p.s.i. Forest Service Spec. 5100-187.

1" diameter hose has a 1" NPSH threaded coupling.
(NFES #1238)

Std. pack: 2

4210-01-166-8122 LG(contains 100 FT) \$53.15

1-1/2" diameter hose has a 1-1/2" NH threaded coupling.
(NFES #1239)

Std. pack: 2

4210-01-165-6597 LG(contains 100 FT) \$65.00

High Pressure Fire Hose

High pressure fire hose with 1" 11-1/2 NPSH compression wedge couplings. A braided hose of 3/4" inside diameter. Working pressure 600 p.s.i. Forest Service Spec. 5100-185. (NFES #1220)

Std. pack: 2

4210-00-595-1838 LG(contains 50 FT) \$134.28

Rubber Suction Fire Hose

Suction fire hose with rocker-lug couplings. Rubber and fabric with wire reinforcement. Forest Service Spec. 5100-184. Couplings per Forest Service Spec. 5100-108.

1-1/2" diameter hose has a 1-1/2" NH threaded coupling.
(NFES #1808)

Std. pack: 4

4210-00-889-1774 LG(contains 8 FT) \$66.15

1-1/2" diameter hose has 1-1/2" NH threaded coupling.
(NFES #0115)

Std. pack: 4

4210-00-889-1775 LG(contains 10 FT) \$76.52

Synthetic Garden Hose

Lightweight hose has a woven synthetic jacket and is lined. 200 p.s.i. operating pressure. 5/8" diameter hose has 3/4"-11-1/2" NH threaded coupling (equivalent to standard garden hose threads). To be used for mop-up operations, pumper protection and misc. applications. Forest Service Purchase Description. (NFES #1016)

Std. pack: 20

4210-01-167-1061 LG(contains 50 FT) \$14.43

Fire Hose Gasket

For fire hose connections. Gasket is made of synthetic rubber and has a circular shape. Forest Service Spec. 5100-190.

For 1" nominal waterway diameter. Has a 1-1/16" inside diameter and a 1-7/16" outside diameter and is 1/8" thick.
(NFES #0743)

Std. pack: 10

5330-00-720-2621

PG(contains 10 EA) \$1.79

For 1-1/2" nominal waterway diameter. Has a 1-9/16" inside diameter and a 2-1/16" outside diameter and is 1/8" thick.
(NFES #0254)

Std. pack: 10

5330-00-239-1873

PG(contains 10 EA) \$1.53

For 2" nominal waterway diameter. Has a 2-1/16" inside diameter and a 2-3/8" outside diameter and is 1/8" thick.
(NFES #0742)

Std. pack: 10

5330-00-239-1875

PG(contains 10 EA) \$5.36

For 2-1/2" nominal waterway diameter. Has a 2-9/16" inside diameter and a 3-3/16" outside diameter and is 3/16" thick. (NFES #2326)

Std. pack: 10

5330-00-239-1877

PG(contains 10 EA) \$3.45

Routine Fire Orders - See page 52 of this publication.

Water Handling Accessories

- Unless otherwise noted, the working pressure of all items under this heading is 600 psi.
- All flow rates are at 100 psi flowing pressure.
- 3/4 inch connections in this catalog use GHT (Garden Hose Thread) threads and 1 1/2 NH threads interchangeably, both designations are the same threads.
- The National Fire Protection Association (NFPA) standard calls for 3/4 inch connections and larger to be NH (national standard) threads. The wildland agencies have adopted this except for 3/4 and 1 inch connections. The 3/4 inch connections shall be 3/4 inch 11-1/2 NH (rather than the NFPA standard of 3/4 inch 7.5 to 8 NH) and 1 inch shall be NPSH (straight pipe) thread.
- This catalog includes some threads that are specific to the USDA Forest Service, and do not follow the NFPA standard. We indicate the threads used on each item.
- All female connections come with gaskets in place.
- All aluminum threaded items are hardcoated for durability.

Fire Hose Thread Adapter

Thread adapter has aluminum couplings with a 600-psi test pressure. Forest Service Spec. 5100-107.

1-1/2" NH female and a 1-1/2" NPSH male. (NFES #0006)

Std. pack: 10 or 60

4210-01-079-9284

EA \$5.37

1-1/2" NPSH female and a 1-1/2" NH male. (NFES #0007)

Std. pack: 10 or 60

4210-01-079-9283

EA \$5.37

Fire Hose Double Female Adapter

Double female connection has aluminum couplings with a 600-psi test pressure. Forest Service Spec 5100-107.

Both ends are 1" NPSH. Female, swivel couplings. (NFES #0710)

Std. pack: 10 or 60

4210-01-080-1457

EA \$10.02

Both ends are 1-1/2" NH. (NFES #0857)

Std. pack: 10 or 60

4210-01-081-8749

EA \$11.78

Fire Hose Double Male Adapter

Double male connection with center wrenching is plain style. Has right-hand threads and aluminum couplings with a 600-psi test pressure. Measures 2" long overall. Forest Service Spec 5100-107.

Both ends are 1" NPSH. (NFES #0916)

Std. pack: 10 or 60

4210-01-080-1458	EA	\$5.12
------------------	----	--------

Fire Hose Increaser

Increaser has aluminum couplings with a 600-psi test pressure. Forest Service Spec 5100-107.

3/4" NH female and a 1" NPSH male. (NFES #2235)

Std. pack: 10 or 60

4210-01-080-6531	EA	\$7.57
------------------	----	--------

Fire Hose Reducer

Reducers have aluminum couplings with a 600-psi test pressure. Forest Service Spec 5100-107.

1" NPSH female and a 3/4" NH male. (NFES #0733)

Std. pack: 10 or 60

4210-01-079-9286	EA	\$4.73
------------------	----	--------

Both ends are 1-1/2", 9 NH. (NFES #0856)

Std. pack: 10 or 60

4210-01-079-9285	EA	\$5.96
------------------	----	--------

1" NPSH female and a 1-1/2" NH male. (NFES #0416)

Std. pack: 10 or 60

4210-01-080-6532	EA	\$7.57
------------------	----	--------

1-1/2" NH female and a 1" NPSH male. (NFES #0010)

Std. pack: 10 or 60

4210-00-975-2969	EA	\$8.42
------------------	----	--------

1-1/2" NPSH female and a 1" NPSH male. (NFES #0418)

Std. pack: 10 or 60

4210-00-294-2648	EA	\$7.02
------------------	----	--------

2-1/2" NPSH female and a 1-1/2" NH male. (NFES #2229)

Std. pack: 10 or 60

4210-01-081-0419	EA	\$11.21
------------------	----	---------

Cap with Chain

Aluminum fire hose threaded cap for use on fire equipment. Furnished with gasket and chain. 600-psi operating pressure. Forest Service Spec 5100-107.

1" NPSH. (NFES #0732)

Std. pack: 10 or 60

4210-01-082-0575	EA	\$4.73
------------------	----	--------

1-1/2" NH. (NFES #2210)

Std. pack: 10 or 60

4210-01-081-8751	EA	\$6.02
------------------	----	--------

Hoseline Tee with Capped Male Branch

Aluminum alloy tee issues 600-psi maximum operating water pressure. Has right-hand threads. Forest Service Spec 5100-107.

Connects 1" NPSH female threaded inlet to 1" NPSH outlet and 3/4" 8 NH branch with male threads; center leg length is 1-1/2". Male threaded 3/4" branch is closed with removable aluminum alloy cap. (NFES #1809)

Std. pack: 10 or 60

4210-01-081-0418 EA \$19.43

Connects 1" NPSH female threaded inlet to two 1" NPSH male threaded outlets. Center leg length is 1-1/2". One outlet is closed with removable aluminum alloy cap. (NFES #2240)

Std. pack: 10 or 60

4210-01-080-1459 EA \$12.63

Connects 1-1/2" 9 NH female threaded inlet to 1-1/2" 9 NH outlet and 1" NPSH branch with male threads. Center leg length is 1-3/4". Branch is closed with removable aluminum alloy cap. (NFES #0731)

Std. pack: 10 or 60

4210-01-080-1460 EA \$12.63

Hoseline Tee with Valved Male Branch

Aluminum alloy tee issues 600-psi maximum operating water pressure. Has right-hand threads. Forest Service Spec 5100-107.

Connects 1-1/2" 9 NH female threaded inlet to 1-1/2" 9 NH discharge and 1" NPSH branch with male threads. Includes female-threaded 1" valve for attachment to branch. Center leg length is 1-3/8". (NFES #0230)

Std. pack: 10 or 60

4210-01-081-0417 EA \$19.10

Fire Hose Nozzle

Barrel-type plastic polycarbonate nozzle adjusts from straight stream to fog to off. Rubber bumper and gasket included.

Female intake is 1" NPSH, with an output capacity of 17 to 20-gpm. Wilco Model HH-I-L United Fire Safety No. 1030 or equal. (NFES #0138)

Std. pack: 10 or 100

4210-00-085-2291 4-3/4" long EA \$6.74

Female intake is 1-1/2" NH, with an output capacity of 60-gpm. (NFES #0137)

Std. pack: 10 or 60

4210-00-181-8872 4-3/4" long EA \$6.49

Wildland fire hose nozzle with 3/4" GHT inlet threads NH (garden hose) threads, brass. Flow rate varies from 4-gpm spray pattern to 8-gpm straight-stream pattern. Will shut off under 250-p.s.i. Forest Service Spec 5100-243. (NFES #0136)

Std. pack: 10 or 100

4730-00-595-1103 5" long EA \$15.25

Barrel-type nozzle with shut off is made of aluminum alloy. Outer barrel rotates from high flow spray, to high flow straight stream, to low flow spray to low flow straight stream and to off. Forest Service Spec 5100-239.

Female intake is a 1", 11-1/2 NPSH, 10 to 25-gpm. (NFES #1081)

Std. pack: 20

4210-01-165-6603 EA \$24.33

Female intake is 1-1/2", 9 NH, 20 to 75-gpm. (NFES #1082)

Std. pack: 20

4210-01-167-1123 EA \$40.95

Shut off type with two outlets. Combination fog and straight-stream nozzle. Both outlets have 3/4" GHT threads. Comes with two tips: 3/16" (10 gpm) straight stream and a 3-gpm spray tip. Inlet is 1" NPSH female. Selector goes from spray to straight, to off. Aluminum nozzle. Tips may be brass or aluminum. Forest Service Spec. 5100-240. (NFES# 0024)

Std. pack: 20

4210-00-640-1892 EA \$122.85

Fire Hose Nozzle Tip

Tips for all nozzles have 3/4" GHT outlets. Including 4210-00-203-3519, 4210-00-640-1892 and 4210-01-108-2934.

All tips have 3/4" GHT female threads. Fog-stream-type tip has 3/4", 11-1/2 NH female threaded inlet and is made of aluminum. Measures 2-1/2" long overall. Forest Service Spec. 5100-244.

Size 3 tip issues 2 to 4-gpm. (NFES #0635)

Std. pack: 24

4210-00-204-3358 EA \$19.03

Size 6 tip issues 5 to 7-gpm. (NFES #0636)

Std. pack: 24

4210-00-204-3386 EA \$29.27

Tips for all nozzles have 3/4" GHT outlets. Including 4210-00-203-3519, 4210-00-640-1892 and 4210-01-108-2934. All tips have 3/4" GHT female threads. Solid straight-stream-

type tip has a 3/4", 11-1/2 NH female threaded inlet and is made of brass. Measures 1-3/4" long overall. Forest Service Spec 5100-244.

Discharge opening is 3/16", 40-gpm. (NFES #0637)

Std. pack: 24

4210-00-203-3855 EA \$6.43

Discharge opening is 3/8", 40-gpm. (NFES #0638)

Std. pack: 24

4210-00-203-3845 EA \$7.28

Straight stream type - 18-gpm. Discharge opening is 1/4". (NFES #0737)

Std. pack: 24

4210-00-177-6135 EA \$5.63

Shut-Off Valve

Aluminum valve has a female threaded inlet with gasket recess and male threaded outlet. Has an on-off or open-close lever with stops at both positions. Removable inlet or outlet allows for easy cleaning and repair. With 600-psi rating. Forest Service Spec 5100-238.

Has 1", 11-1/2 NPSH threads on both ends. (NFES #1201)

Std. pack: 20

4210-01-165-6599 EA \$44.10

Has 1-1/2", 9 NH threads on both ends. (NFES #1207)

Std. pack: 20

Chain Saw Accessories

File - American Pattern

American-pattern files mainly consist of machinists' files and mill or saw files. Machinists' files are used where metal must be removed rapidly and finish is of secondary importance. Mill or saw files are used for sharpening mill or circular saws and large crosscut saws; for lathe work; for draw filing; for filing brass and bronze; and for smooth general filing. These files are characterized by hardened, uniform teeth and conventional-style tang for attaching a wooden handle. Files are made of carbon alloy steel. The three standard tooth cuts available on American-pattern files are as follows: bastard cut (coarse teeth for rapid stock removal), second cut (medium teeth for moderate stock removal) and smooth cut (fine teeth for smooth finishes).

Mill File (Regular). File is for sharpening mill or circular saws and for general use. Width is tapered for one third of length to point; thickness is uniform. Bastard-cut is single cut on both flat surfaces and both square edges.

(NFES #0351)

Std. pack: 12

Federal Supply Schedules

Under GSA's Schedules program, contracts are awarded to multiple companies supplying comparable services and products. Schedule contracts are awarded to responsible companies that offer commercial services or products, at varying prices, provided that prices are determined fair and reasonable. As a customer, you may order directly from the Schedule contractor.

Multiple Award Schedule (MAS) 539 - Solutions And More (SAM)

Multiple Award Schedule (MAS) 539 - Solutions And More (SAM), is your source for recreational, hospitality, law enforcement, facilities, industrial, and environmental services and products.

ALL TERRAIN VEHICLES (ATV'S)

FIRE FIGHTING EQUIPMENT AND SUPPLIES

PRE FAB STRUCTURES

ABOVE GROUND STORAGE TANKS/SYSTEMS:

POWER DISTRIBUTION EQUIPMENT, GENERATORS

WASTE RECEPTACLES (OUTDOOR)

FOOD PREPARATION EQUIPMENT

MATERIAL HANDLING EQUIPMENT, SCAFFOLDING,
WORK AND SERVICES PLATFORMS AND FORKLIFTS

RECREATIONAL EQUIPMENT

RAINWEAR AND SPECIAL PURPOSE CLOTHING

SIGNS AND DISPLAY SYSTEMS

SELF CONTAINED BREATHING APPARATUS EQUIPMENT

Note: For information on the above MAS or any other schedules, visit our web site <http://www.fss.gsa.gov> and click on **Schedules E-LIBRARY**. This site is your source for the latest GSA schedules contract information. It contains basic ordering guidelines, complete schedule listings, and a powerful search engine which allows you to search by keyword text, schedule number, special item number (SIN), contractor name and contract number. The Schedules E-LIBRARY is updated daily to provide you with the latest award information.

How to Submit Your Order

Emergency Requisitions

During extreme fire situations, it is imperative that we process your order in the most expeditious manner. The following emergency order procedures will assist both you the customer and GSA in the elimination of bottle-necks and ensure the smooth processing of your order.

Emergency fire orders, should be submitted by telephone or fax (Standard Form 344 or GSA Form 3222), to the following offices:

Monday through Friday: 7:30 a.m. - 4:15 p.m. (CST)

GSA Customer Assistance Branch - Fort Worth, TX
telephone: (817) 978-2051
fax: (817) 978-2605

All other times (after hours, weekends, and holidays)

GSA Western Distribution Center, Stockton, CA
telephone: (209) 946-6382/6383/6384
fax: (209) 946-6076

Note: *If there is no answer at Stockton or during after hours, weekends, and holidays, call Stockton's answering service at (209) 929-6959 and advise them that you have an emergency fire order to submit and need to contact depot personnel. Give them your name and telephone number. The answering service will contact depot personnel and relay your message. Depot personnel will then return your call and take care of the situation. During fire season, there are always depot personnel on stand-by to take care of any emergencies.*

If trouble is experienced contacting the Stockton depot or their answering service, please call one of the following depot personnel, day or night.

Jim Gorman(209) 466-2451
Edward Ashley(209) 477-3384
Raul Jacques(209) 477-5505
Virginia Gorman(209) 466-2451
Mary Bagalayos(209) 951-2067
Rudy Cabrera(209) 476-0662

If trouble is experienced in contacting any of the above after hours numbers, please call Fort Worth, (817) 978-2888, Federal Building Security, and leave a message and telephone number where you can be reached. This number is answered 24 hours a day. The duty officer will contact a GSA/FSS employee who will return your call as soon as possible.

The above procedures should produce a prompt response to your emergency situation. If additional assistance is required, please contact Ray Balli, GSA Fire Program Coordinator:

Office(817) 978-8637
Home(817) 294-5390
Pager(888) 663-2108

How to Submit Your Order

Routine Requisitions

Routine FEDSTRIP hardcopy requisitions may be submitted to the nearest GSA Acquisition Center listed below. **We do recommend that routine fire orders be sent to our Fort Worth office, which has management responsibility over the fire program.**

GSA/FSS Office Supplies and Paper Acquisition Center Attn.: 2FYI 26 Federal Plaza New York, NY 10278 telephone: (212) 264-8201/8210 fax: (212) 264-6829	GSA/FSS General Products Acquisition Center Attn.: 7FXM 819 Taylor St Ft. Worth, TX 76102 telephone: (817) 978-2051 fax: (817) 978-2605	GSA/FSS Hardware SuperStore Acquisition Center Attn.: 6FEB 1500 Bannister Rd. Bldg 6 Kansas City, MO 64131 telephone: (816) 926-7315 fax: (816) 926-7971
---	---	--

Note: *Inquiries and status of requisitions should also be referred to the closest office above. For fire requisitions we again recommend that inquiries be addressed to the Fort Worth office.*

Requisition Priority Codes

The originator of a requisition is required to enter a priority designator code on each requisition. This entry indicates the relative importance of the requisition. Standard delivery days (SDD) indicate the elapsed time from the date GSA receives requisitions for stock items, which are not backordered, to the date of delivery to destinations in the 48 states.

Code	Condition for Use	SDD
03	Will be used for disaster supplies or equipment required immediately for prolonging life in case of disaster, critical injury, fatal disease, or calamity.	7 days
06	The item required is one without which the activity concerned is unable to perform assigned operational mission or tasks, or such condition is imminent.	11 days
08	The item required is one for immediate use, the lack of which is impairing the operational capability of the activity.	11 days
15	Routine stock replenishment.	29 days

Note: *For more detailed Information refer to FEDSTRIP Operating Guide, FPMR 101-26.2. the FEDSTRIP Operating Guide (Mail List Code OFOG-0008) which is available from GSA's Centralized Mailing List Service, (817) 334-5215, fax (817) 334-5227, or e-mail: ken.cowan@gsa.gov.*

GSAAdvantage!TM

An on-line, one-stop shopping service

Shopping just got easier! GSAAdvantage!TM is a new electronic shopping mall that makes it simple for authorized Government agencies to order supplies and services. With GSAAdvantage!TM, you can:

- **Browse** or search for items using key words, part numbers, National Stock Numbers, vendor names, etc.
- **Compare** features, prices, and delivery options.
- **Order** electronically... and simply.
- Choose a convenient **payment option**:

Government purchase card

or

Traditional Interfund (FEDSTRIP) billing

Over 1 million items are currently available for browsing and ordering through GSAAdvantage!TM. But we're not stopping there... more and more items are being added everyday. Our goal is to offer you over four million items when completed - all under one simplified ordering system!

GSAAdvantage!TM is accessible through the Internet's World Wide Web at:

<http://www.gsaAdvantage.gov>

If you do not have web access, GSA has created a software program called "GSAAdvantage!TM ACCESS." This software instructs your computer's modem to dial a 1-800 number for immediate access into GSAAdvantage!TM. Call 703-305-7359 to order your free "ACCESS" software.

Note: *If you plan to place orders under your Activity Address Code, a password is required. Customers who already have a MUFFIN password can use that same password to order through GSAAdvantage!TM. Customers without a password can apply for one either through GSAAdvantage!TM or by calling 703-305-7977.*

If you have any questions, please leave a message in the GSA Hotline voicemail box at 703-305-7359, or e-mail us at gsa.advantage@gsa.gov

How to Submit Your Order

MUFFIN - Multi-Use File for Interagency News

An additional source of information on the types of supplies and services provided by GSA/FSS is an on-line computerized information and requisitioning system called MUFFIN (Multi-Use File for Inter-agency News). MUFFIN was created to provide our customers with up-to-date facts and requisitioning support, and is available 24 hours a day. No special software is required - just generic communication software (some examples are ProComm, CrossTalk, and PFS First Choice. Many others will work just as well). No user fees - but you may incur long distance telephone charges depending on how your agency enables you to connect.

The MUFFIN System User Manual (Mail list code: OMUF0001) is available from Centralized Mailing List Service (CMLS) at (817) 334-5215, or fax (817) 334-5227, or e-mail: ken.cowan@gsa.gov.

If additional assistance is required, call the MUFFIN Help Line at (703) 305-7200.

MUFFIN Features

Source of Supply. Information on GSA stock, direct delivery, and Federal Supply Schedule programs. Inquire by vendor name, National Stock Number or special item number, commodity name, schedule number, or contract number.

Customer Service Information. Provides names, locations, telephone numbers and areas of responsibility for GSA Customer Service Directors nationwide and overseas.

Discrepancy Reporting. Electronic submission of Reports of Discrepancy (SF 364 "ROD"), Transportation Discrepancy Reports (SF 361 "TDR"), and Product Quality Deficiency Reports (SF 368 "PQDR").

Customer Comments and Suggestions. We want your feedback, not only about the MUFFIN system, but any issue involving the business you conduct with GSA. Your comments are received at GSA headquarters (Customer Service Division) the next business day; we will respond or forward your feedback to the appropriate program office within 2 business days.

FEDSTRIP Requisitioning. Requisitions normally mailed to GSA can be input for direct entry into the GSA system. Customers requiring delivery of GSA stock items on a regularly scheduled basis may elect to utilize the MUFFIN phased delivery system. Use of this feature requires assignment of a password. For additional information, phone (703) 305-6978.

Requisition Status. MUFFIN users have on-line access to status of requisitions submitted to GSA. This feature is available for all requisitions and is not limited to requisitions submitted through MUFFIN.

Establishing a connection

MUFFIN's modem number is **(202) 205-3890** or **(202) 205-3930**. Communications parameters appropriate for electronic bulletin boards will work with MUFFIN. Some experimentation may be necessary; we suggest starting with **7 data bits, 1 stop bit, even parity, full duplex**. The system supports up to 9600 baud communications.

FTS2000 System A (AT&T) data network – 9246028
FTS2000 System B (Sprint) data network – 20256600
Telnet/TCPIP/Defense Data Network – 159.142.118.004

How to Access MUFFIN

MUFFIN is accessible via telephone connection (modem to modem) as well as through several data networks. How you connect will depend on your own agency's communications capabilities. Please consult with your own local computer or telecommunications staff to assist you in connecting to MUFFIN.

After establishing a connection, depress the (enter) key to bring up MUFFIN's colon prompt (:). At the prompt type HELLO(space) GSA.MUFFIN (enter). Remember the period between "GSA" and "MUFFIN". Your USER ID is your FEDSTRIP activity address code (if known) or other agency abbreviation. Once you've signed on, simply follow the instructions on the screen. Because it is a generic system, MUFFIN does not drive any print functions. Printing your MUFFIN sessions is controlled by your own communication software or network capabilities. Your local computer support staff should be able to assist you in printing your MUFFIN work.

Notes on MUFFIN Requisitioning

You should already be familiar with the FEDSTRIP requisition system to use MUFFIN's requisition entry program. The MUFFIN capability is simply an electronic means of submitting the same information you would include on the SF 344 hard copy requisition. Information on FEDSTRIP is available in the FEDSTRIP Operating Guide (Mail List Code OFOG-0008) which is available from GSA's Centralized Mailing List Service (CMLS), (817) 334-5215, fax (817) 334-5227, or e-mail: ken.cowan@gsa.gov.

The first time you use your requisition password, MUFFIN will prompt you to enter "constant" data. This is the data that appears across the top of SF 344 and remains the same for most of your requisitions. MUFFIN stores this data along with your password; in subsequent sessions, you will only have to enter "constant" data if your needs change.

MUFFIN will accept various FEDSTRIP transactions in addition to ordinary A0A or A01 requisitions. Simply change the DOC ID (constant #1) to reflect the trans-action you need (e.g., AC1 cancellation, AF1 follow-up, A0E/A05 exception data requisition). Remember to adjust the Julian date (constant #5) for cancellations and follow-ups.

At the end of your requisitioning session, MUFFIN will generate a list of all your requisitions along with the total dollar value. **BE SURE TO PRINT THIS LISTING FOR YOUR RECORDS.** (Printing is driven by your own communication software; please consult with your local computer support staff for assistance in printing your MUFFIN session.)

Prices displayed in MUFFIN are guaranteed for GSA stock items only. If your order includes nonstock items, the "wrap-up" list of requisitions MUFFIN generates includes a warning that prices may vary for other than GSA stock items.

When checking status, remember that your requisition number is 14 digits long. It consists of your Activity Address Code (6 digits), followed by the requisition Julian date (4 digits), followed by the serial number you assign each line item (4 digits).

Reporting Discrepancies

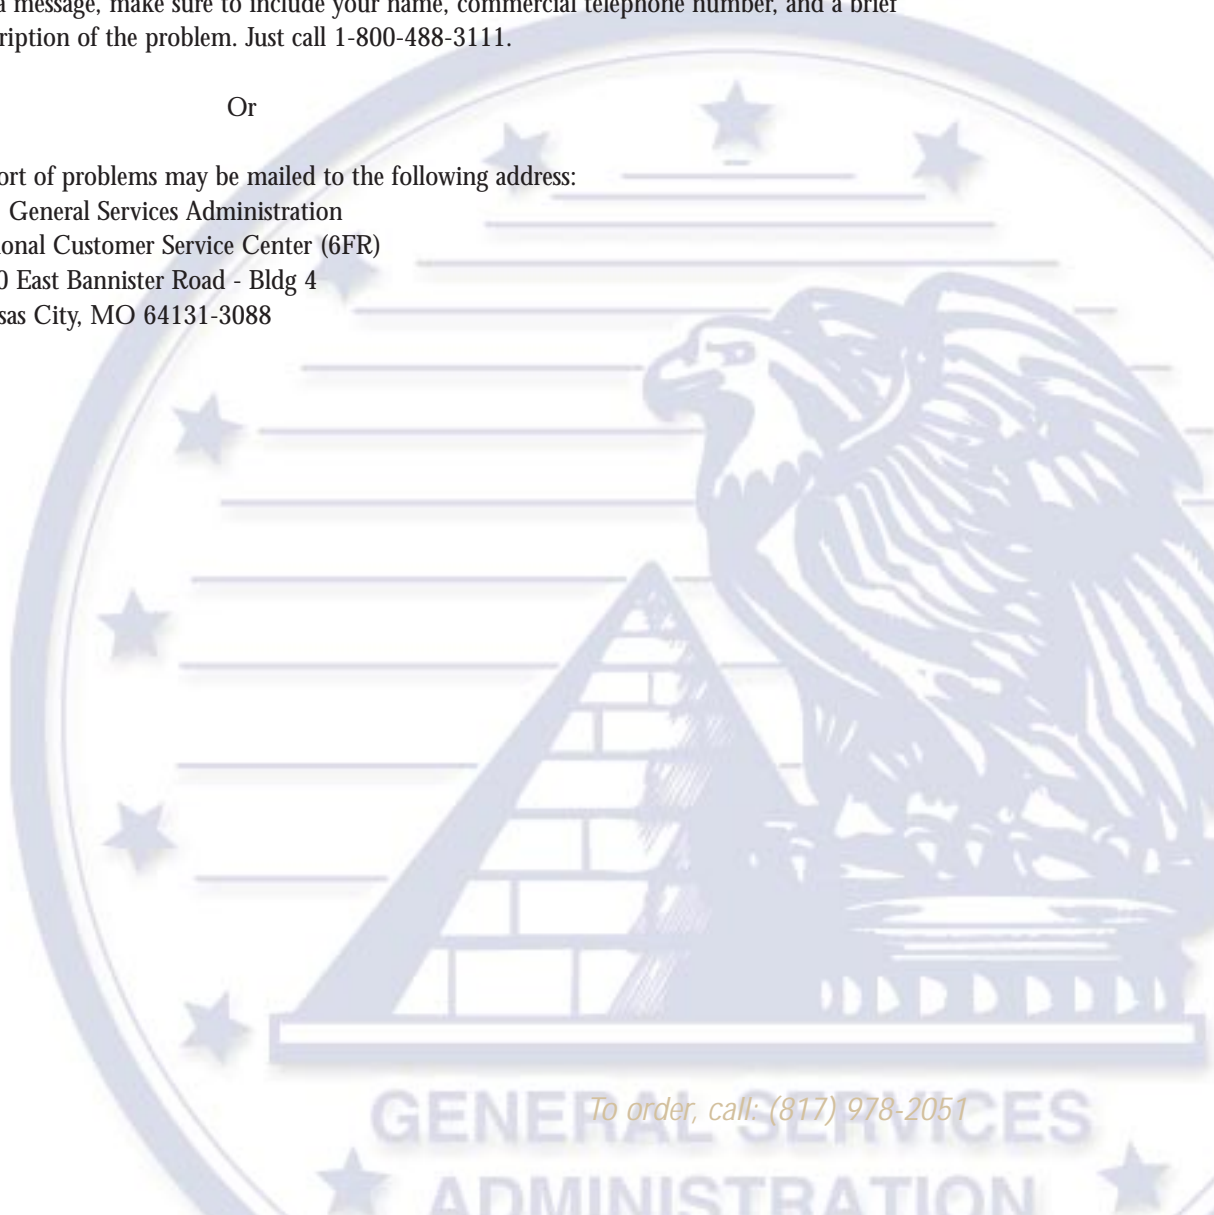

Problems With Your GSA Order?

Put Your Mind At Ease! GSA is committed to providing quality products and service. If you experience any kind of problems with your order or have a concern over the quality of a product, there are several ways to report the problem.

- Internet: **GSAAdvantage[™]** lets you report discrepancies at <http://www.gsaAdvantage.gov>.
- E-Mail: You may report discrepancies and other problems to the National Customer Service Center (NCSC) by e-mail to this address: rodsm.ncsc@gsa.gov.
- Telephone: All problems with orders or questions about FSS supplies or services may be directed to the NCSC. Representatives are available between 7:00 a.m. and 7:30 p.m. Central Time, Monday through Friday. After hours calls will be recorded and answered the next business day. When leaving a message, make sure to include your name, commercial telephone number, and a brief description of the problem. Just call 1-800-488-3111.

Or

- Mail: Report of problems may be mailed to the following address:
U.S. General Services Administration
National Customer Service Center (6FR)
1500 East Bannister Road - Bldg 4
Kansas City, MO 64131-3088

Customer Service Director Program

The Customer Service Director (CSD) program is performed by a worldwide network of supply and service specialists. Responsibilities have been divided between headquarters and field levels to assure that issues or problems are addressed at the appropriate level and that quality customer assistance is as near as a telephone.

Headquarters Level – Customer Assistance

Central Office CSD's serve as focal points for strengthening communication between the headquarters of Federal departments and agencies and FSS, developing and coordinating customer-oriented programs, and evaluating our effectiveness and responsiveness to customer needs.

Agency headquarters activities are encouraged to contact the Customer Service Division, Office of Strategic Planning Marketing, (703) 305-5600 or DSN 607-1241 (Washington Metropolitan Area) and 327-1241 (outside Washington Metropolitan Area) to obtain assistance with policy issues which are national in scope and problems in support that cannot be resolved at the regional level. Day-to-day operational problems or issues related to a specific geographic area should be directed to the appropriate field-level CSD.

GSA "HELP" Line

GSA also provides an all-purpose number for customers who have a problem or question concerning

any of the supplies or services provided by FSS.

1-800-488-3111 (DSN 465-1416)

This 24-hour Help Line is handled by the National Customer Service Center (NCSC). The NCSC is here to help you by answering your concerns, providing help and assistance, and, if necessary, referring you to the appropriate FSS "center of expertise" for specific knowledge or unique or special situations. Technicians are available between the hours of 7:00 a.m. and 5:30 p.m., c.s.t. After duty hours, messages will be recorded and answered the next business day. You may also contact the NCSC via e-mail at rodsn.ncsc@gsa.gov.

Field Level – Customer Assistance

CSD's are assigned to various regional offices as identified below. They are there to help in resolving problems and in answering any questions or concerns about GSA support. They provide seminars for either specific or general discussion on any phase of support offered by FSS and make periodic liaison visits to customer installations. A schedule of CSD seminars is published in each edition of *MarkeTips*. *MarkeTips* (Mail List Code: OOSC-0002) is available in the FEDSTRIP Operating Guide (Mail List Code OFOG-0008) which is available from GSA's Centralized Mailing List Service (CMLS), (817) 334-5215, fax (817) 334-5227, or e-mail: ken.cowan@gsa.gov. For Product Specific Assistance, customers should contact the appropriate Acquisition Center directly (see page 52).

Wildland Fire Program

National Fire Cache System

The Fire Cache System is a series of designated strategic points where supply tools and equipment are assembled in quantities, or standard units, for exclusive use in fire suppression. The fire caches are operated by the U. S. Forest Service and the Bureau of Land Management.

Requisitioning from Defense Logistics Agency (DLA)

Throughout the Federal Government, there are two principal wholesale supply support activities providing inter-governmental support-the Defense Logistics Agency (DLA) and the General Services Administration (GSA). These two agencies have been working closely to eliminate avoidable overlap and duplication in their supply systems and have agreed to support military and civilian customers.

Requisitions for items managed by DLA should be completed in FEDSTRIP format and forwarded to the appropriate DoD facility. The DLA facility is determined by the routing identifier code. If requisitions are inadvertently sent to GSA, they will be forwarded to the appropriate source of supply.

Discrepancies on DLA shipments should be filed with those agencies. See pages 67 for customer service contacts.

Defense Supply Centers

For the names, addresses and telephone numbers of other DLA Customer Service Representatives, access the DLA Web Site: <http://www.supply.dla.mil> then click on General Information and points of contact. They are listed by state.

Defense Logistics Agency (DLA) Items

Note: DLA managed items are not available from GSA. They are listed in this publication as a courtesy to the customer and must be ordered from the DLA center (RIC) listed for each item. See page 66 of this catalog for ordering information and a list of applicable addresses/telephone numbers. If you need assistance, contact one of their Customer Service Representatives listed on page 67. The following DLA items have been admitted to the NFES.

Acres	.4	Hectares

Fahrenheit vs. Celsius

Temperature introduces new points of reference using metrics. Comparing degrees Fahrenheit (F) to degrees Celsius (C), you have:

	Fahrenheit	Celsius
Water boils	212	100
Normal body temperature	98.6	37
Room temperature	68	20
Water freezes	32	0

To convert from degrees Fahrenheit (F) to degrees Celsius (C), subtract 32 and then multiply by 5/9 (approx. 0.56).

Example: 75 F converts to 24 C
 $(75 - 32 = 43, 43 \times 0.56 = 24.08)$

Units of Length

The basic unit of length is the meter (the equivalent of 39.37 inches). The name of each of the other units consists of the word "meter" and a prefix.

A centimeter (symbol is cm) is about the width of the nail on your little finger, or a little more than the width of a paper clip. The average female is about 160 cm tall (or 5'4") while the average male is about 170 cm tall (or 5'8"). A nickel is about 2 cm in diameter.

A millimeter is about the thickness of a dime, where a nickel is about 2mm thick. One mm (symbol for millimeter) is about the diameter of a paper clip wire. A credit card is about 0.5 mm thick; while the width of a paper match is about 3 mm. A kilometer is used to measure long lengths and distances. The

kilometer, whose symbol is km, is about 0.6 miles, therefore 10 kilometers equals about 6 miles. The length of 5 city blocks is about 1 km.

Common Metric Prefixes

Prefix Power of 10 by which basic unit is multiplied

Kilo 1000.0 (one thousand)	Deci 0.1 (one tenth)
Hecto 100.0 (one hundred)	Cent 0.01 (one hundredth)
Deka 10.0 (ten)	Milli 0.001 (one thousandth)

As the prefix indicates the power of 10, by which the basic unit is multiplied, we know how to construct the metric units of length.

1 kilometer = 1000.0 meters	1 decimeter = 0.1 meter
1 hectometer = 100.0 meters	1 centimeter = 0.01 meter
1 dekameter = 10.0 meters	1 millimeter = 0.001 meter
1 meter = 1.0 meter	

Since each unit is 10 times the next smaller unit, the set of metric units of length is a decimal system.

Units of Mass

The basic unit for mass is the gram, symbol g. This weight of this small quantity is equivalent to the contents of a package of low-cal sweetener, or two paper clips. There are about 28 grams in 1 ounce, so you can see that the gram is a small unit of mass.

The milligram (symbolized by mg) is used to measure very small masses, such as the ingredients in medications. The mass of an aspirin tablet is about 300 mg while a grain of rice is about 10 mg.

A kilogram or kg is equal to approximately 2.2 pounds. A metric ton is equal to 1000 kilograms. The mass of 1 pound of coffee is about 0.5 kg. A half-gallon carton of milk weighs about 1 kg. The average woman weighs about 58 kg (or 128 pounds), with the average man weighing about 70 kg (or 156 pounds).

Units of Volume

Measurement for volume in the metric system is the liter, rather than using pints, quarts or gallons. A liter is a little more than a quart (about 2 ounces more). A gallon of paint is the equivalent of about 4 liters. A 2-liter cola bottle holds slightly more than 1/2 gallon.

Volumes smaller than 1 liter are measured in milliliters (ml). There are about 30 milliliters in 1 fluid ounce. A teaspoon holds about 5 ml. A standard soft drink can contains 355 ml. Liquid medications for young children are typically pre-scribed in milliliters.
